Numeric question

Question	Answer		
Numerical input	333		
Multiple numerical input			
Some example subquestion	1		
New answer subquestion	2		
Third subquestion	3		
Last subquestion	4		
Multiple numerical input (Minimum sum value : 3, Maximum sum value : 10, Maximum characters :1)			
Apples	1		
Oranges	2		
Bananas	3		
Multiple numerical input (Use slider layout, Slider accuracy : 0.1, min and max value, use of text separator)			
Some example subquestion less more	5		
New answer subquestion less more	5		
Third subquestion less more	5		
Last subquestion less more	5		
Array numbers (text input)			
X-axis example subquestion	X-axis new answer subquestion	X-axis third subquestion	X-axis last subquestion

Question	Answer			
	X-axis example subquestion	X-axis new answer subquestion	X-axis third subquestion	X-axis last subquestion
Y-axis example subquestion	11	12	13	14
Y-axis new answer subquestion	21	22	23	24
Y-axis third subquestion	31	32	33	34
Y-axis last subquestion	41	42	43	44

Single choice question

Question	Answer
Yes/No	Yes
Gender	Male
5 point choice	3
Language switch	en
List dropdown (default option)	New answer option
List dropdown (with category)	first category - Third answer option
List radio	Last answer option

Other

List radio with comment	Default option This is a comment
-------------------------	-------------------------------------

Date	16/11/2021
Date (Display select boxes , year Maximum and Minimum)	06/05/2021

Next is the array single choice question type

Array

	Some example answer option	New answer option	Third answer option	Last answer option
Some example subquestion right		X		
New answer subquestion right		X		
Third subquestion right				

Question	Answer			
	Some example answer option	New answer option	Third answer option	Last answer option
Last subquestion right			X	

Array by column

	Some example answer option	New answer option	Third answer option	Last answer option
Some example subquestion	X			
New answer subquestion		X		
Third subquestion			X	
Last subquestion				

Array 5 point choice

	1	2	3	4	5
Some example subquestion			X		
New answer subquestion		X			
Third subquestion				X	
Last subquestion		X			

Array 10 point choice

	1	2	3	4	5	6	7	8	9	10
Some example subquestion								X		

Question	Answer									
	1	2	3	4	5	6	7	8	9	10
New answer subquestion				X						
Third subquestion			X							
Last subquestion							X			

Array (Increase/Same/Decrease)

	Increase	Same	Decrease
Some example subquestion		X	
New answer subquestion			X
Third subquestion			
Last subquestion			

Array Yes/No/Uncertain

	Yes	Uncertain	No
Some example subquestion			
New answer subquestion			X
Third subquestion		X	
Last subquestion		X	

Array dual scale

	Some example answer option - scale 1	New answer option - scale 1	Third answer option - scale 1	Last answer option - scale 1	Some example answer scale 2	New answer scale 2	Third answer scale 2	Last answer scale 2

Question		Answer						
	Some example answer option - scale 1	New answer option - scale 1	Third answer option - scale 1	Last answer option - scale 1	Some example answer scale 2	New answer scale 2	Third answer scale 2	Last answer scale 2
Some example subquestion		X						
New answer subquestion		X						
Third subquestion					X			
Last subquestion					X			

Array dual scale (dropdown)

	Some example answer option - scale 1	New answer option - scale 1	Third answer option - scale 1	Last answer option - scale 1	Some example answer scale 2	New answer scale 2	Third answer scale 2	Last answer scale 2
Some example subquestion		X			X			
New answer subquestion		X				X		
Third subquestion				X				X
Last subquestion	X					X		

Array number (Minimum: -2, Maximum: 2, step : 2)

Question	Answer			
	Some example subquestion - X-Scale	New answer subquestion - X-Scale	Third subquestion - X-Scale	Last subquestion - X-Scale
Some example subquestion - Y-scale	-2	-2		2
New answer subquestion - Y-scale	-2	-2		
Third subquestion - Y-scale				2
Last subquestion - Y-scale	2		-2	

Multi choice question

Question	Answer
Multiple options	
Some example subquestion	
New answer subquestion	Yes
Third subquestion	Yes
Last subquestion	
Other	
Multiple option (with exclusive option)	
Some example subquestion	Yes
New answer subquestion	
Third subquestion	Yes
Last subquestion	
Exclusive option	
Multiple option with comments (default answers and 1 Minimum Answer)	
LimeSurvey is great because	Yes First comment
LimeSurvey is best than	Yes Second comment
LimeSurvey is beautiful like	
LimeSurvey is easy like	
If some question have the same option, you can use array to show a question list.	
Array (Checkbox layout)	

Question	Answer			
----------	--------	--	--	--

	Some example subquestion - X-Scale	New answer subquestion - X-Scale	Third subquestion - X-Scale	Last subquestion - X-Scale
Some example subquestion - Y Scale		1		
New answer subquestion - Y Scale		1		
Third subquestion - Y Scale			1	
Last subquestion - Y Scale				

Multichoice question with ranking option

Ranking	
Rank 1	New answer option
Rank 2	Last answer option
Rank 3	
Rank 4	

Ranking (minimum and maximum answer)

Rank 1	Third answer option
Rank 2	Last answer option
Rank 3	
Rank 4	

Condition and scenario

Question	Answer
A Yes/No non mandatory question to show or hide next question.	Yes
This is displayed only if you select yes.	
This is displayed only if you select no.	
This is displayed only if no answer is checked. (by default)	
This is displayed only if you select yes.	
This is displayed only if you select no.	
This is displayed only if no answer is checked. (by default)	
For complex condition , you can use scenario.	
display question 1	Yes
display question 2	
Display question 1 and 2 under condition.	
Display question 1	Yes
Display question 2	Yes
Hide question 1 and 2 even if you select display an previous question.	No
Question 1 : displayed if you select Show question 1 at one of previous question	
Question 2 : displayed if you select Show question 2 at one of previous question.	

Filter

Question	Answer
You can filter some question with a multi choice option.	
Some example subquestion	Yes
New answer subquestion	Yes
Third subquestion	
Last subquestion	

Filtered array with previous question.

	Yes	Uncertain	No
Some example subquestion			
New answer subquestion			
Third subquestion			
Last subquestion			

You can exclude some option with Array Filter Exclusion.

	Yes	Uncertain	No
Some example subquestion			
New answer subquestion			
Third subquestion	X		
Last subquestion	X
